

CHAZON DIGITAL VENTURES

Website Development Brief

1. WEBSITE OBJECTIVE

Build a modern, premium and conversion-focused website for **Chazon Digital Ventures** that establishes the company as a:

Digital Revenue & Growth Partner for Businesses

The website should communicate that Chazon does not merely provide individual digital marketing services. It brings together:

Strategy → Digital Platforms → Marketing → Automation → Analytics → Optimisation → Revenue Growth

The website should generate qualified enquiries from businesses looking for strategic digital support, website development, performance marketing, social media marketing and business automation.

2. CORE POSITIONING

Primary positioning

Digital Revenue Consultant

Supporting proposition

Digital Commerce & Revenue Enhancement

Suggested brand statement

We help businesses build, optimise and grow their digital revenue channels.

Suggested supporting copy

From building your digital foundation to driving traffic, generating leads, improving conversions and automating customer journeys, Chazon Digital Ventures brings strategy and execution together to help businesses grow digitally.

Brand tagline

Revenue-Led Digital Transformation

3. TARGET AUDIENCE

The website should speak primarily to:

- SMEs
- Entrepreneurs
- Start-ups
- D2C businesses
- B2B businesses
- Retail businesses
- Professional service businesses
- Hospitality businesses
- Travel & tourism businesses
- Healthcare/wellness businesses
- Manufacturers entering digital commerce
- Businesses with an existing website/social presence but limited digital results

Key customer problem

Many businesses have:

- A website but limited enquiries
- Social media but no conversion strategy
- Advertising but unclear ROI
- Leads but poor follow-up
- Manual business processes
- Multiple digital platforms operating independently

Chazon's role

Connect the pieces and make the digital ecosystem work as a business growth engine.

4. WEBSITE STRUCTURE

Recommended primary navigation:

**HOME | ABOUT | SERVICES | OUR APPROACH | WORK / CASE STUDIES |
INSIGHTS | CONTACT**

Header CTA:

LET'S TALK

Secondary CTA where appropriate:

5. HOMEPAGE

SECTION 1 — HERO

Large, clean and premium opening section.

Headline

Turn Your Digital Presence Into a Revenue Engine.

Supporting copy

Chazon Digital Ventures helps businesses build, optimise and scale their digital revenue channels through strategy, technology, marketing and automation.

CTA buttons

Let's Talk

Explore Our Services

Visual direction

Use an abstract digital ecosystem / revenue growth visual rather than a generic stock image of people working on laptops.

Possible animation:

Strategy → Build → Market → Convert → Automate → Grow

6. BUSINESS PROBLEM SECTION

Heading

Having a digital presence is not the same as having a digital growth engine.

Show 4–5 common business situations:

"We have a website, but..."

- It isn't generating enough enquiries.

- Our social media isn't converting.
- Our advertising isn't delivering consistent results.
- We are losing leads because follow-ups are manual.
- We don't know which digital activities are actually generating revenue.

Closing statement

That's where Chazon comes in.

7. CHAZON VALUE PROPOSITION

Heading

Strategy + Execution + Optimisation

Three major cards:

STRATEGY

Understand the business, customer, competition and revenue opportunity.

EXECUTION

Build and activate the digital platforms, campaigns and customer journeys.

OPTIMISATION

Measure performance, identify opportunities and continuously improve.

Visual:

PLAN → BUILD → EXECUTE → MEASURE → OPTIMISE → GROW

8. OUR SERVICES

Group them into 4 strategic pillars.

01 DIGITAL FOUNDATION

- Website Development
- E-commerce Development
- Landing Pages
- Google Business Profile

- Digital Platform Setup
- UI/UX & Conversion Optimisation

02 DIGITAL GROWTH

- Performance Marketing
- Google Ads
- Meta Ads
- Social Media Marketing
- SEO
- Lead Generation
- Content Strategy
- Digital Campaigns

03 REVENUE & COMMERCE

- Digital Revenue Strategy
- E-commerce Strategy
- Marketplace Strategy
- Conversion Optimisation
- Customer Journey Mapping
- Pricing & Merchandising
- Digital Commerce Consulting

04 AUTOMATION & RETENTION

- WhatsApp Business Solutions
- Lead Follow-up Automation
- Customer Communication
- Marketing Automation
- CRM Workflows
- AI-powered Customer Support
- Repeat Purchase / Retention Systems

CTA:

Explore Our Capabilities →

9. THE CHAZON DIFFERENCE

Heading

We don't start with the channel. We start with the business objective.

Explain the difference between traditional digital marketing and Chazon's approach.

Traditional approach

"You need Instagram."

"You need Google Ads."

"You need a website."

Chazon approach

What are you trying to achieve?

↓

Where are your customers?

↓

What digital journey will move them toward conversion?

↓

Which platforms and channels should we use?

↓

How do we measure the commercial outcome?

This should become a strong visual section.

10. OUR APPROACH / PROCESS

Inspired by the clear process structure used by DigiChefs, but customised for Chazon. DigiChefs currently presents its process as planning/strategy, design/execute, and reporting/analytics.

Chazon should use:

01 DISCOVER

Understand the business, objectives, audience, existing digital assets and challenges.

02 STRATEGISE

Develop the digital growth roadmap, channel strategy, customer journey and KPIs.

03 BUILD

Create or optimise the required digital platforms and assets.

04 EXECUTE

Launch campaigns, content, advertising, automation and conversion initiatives.

05 MEASURE

Track traffic, leads, conversions, customer behaviour and revenue indicators.

06 OPTIMISE

Use performance data to continuously improve the digital ecosystem.

Visual:

DISCOVER → STRATEGISE → BUILD → EXECUTE → MEASURE → OPTIMISE

11. CASE STUDIES / OUR WORK

Showcase:

- Client/project
- Business challenge
- Chazon's role
- Strategy
- Execution
- Deliverables
- Outcome / current status

As measurable results become available, introduce metrics such as:

Leads generated

Cost per lead

Conversion rate

Website traffic

ROAS

Revenue generated

Customer acquisition cost

Case-study format

THE CHALLENGE

What was the business problem?

THE STRATEGY

What did Chazon recommend?

THE EXECUTION

What was implemented?

THE RESULT

What changed?

CTA:

View Case Study →

12. INDUSTRIES

Rather than limiting Chazon to one sector, create an expandable section.

We work with businesses across:

D2C & E-commerce

Retail

Hospitality

Travel & Tourism

Professional Services

Healthcare & Wellness

Manufacturing

B2B

Start-ups & Entrepreneurs

Each industry can eventually have its own landing page.

13. WHY CHAZON

Heading

Your business doesn't need more digital activity. It needs the right digital activity.

Suggested points:

Business-first thinking

We begin with the business objective rather than automatically recommending a channel.

Strategy-led execution

Every execution activity should connect to a defined objective and KPI.

Integrated digital thinking

Website, social media, advertising, search, WhatsApp and automation should work together.

Practical execution

Chazon combines consulting with hands-on implementation.

Data-led optimisation

Campaigns and digital platforms should continuously evolve based on performance data.

Flexible engagement

Work with Chazon for a specific project, ongoing execution or as an extended digital growth partner.

14. ABOUT CHAZON

Heading

Digital expertise with a business-growth mindset.

Introduce the founder/consultant and experience in:

- Marketing
- Media planning
- Digital platforms
- Website development
- Performance marketing
- Social media
- Digital commerce
- Revenue enhancement

The tone should be **consultative and experienced**, not "agency salesperson."

Professional photograph of Binny Rogin.

CTA:

Know Chazon →

15. INSIGHTS

Create an editorial section to establish expertise and improve organic visibility.

Categories:

DIGITAL REVENUE

- How to build a digital revenue channel
- Why traffic doesn't always mean revenue
- Website conversion fundamentals

PERFORMANCE MARKETING

- Google Ads
- Meta Ads
- Lead generation
- Campaign optimisation

DIGITAL COMMERCE

- E-commerce
- Marketplaces
- Customer journeys
- Conversion optimisation

AUTOMATION

- WhatsApp automation
- Lead management
- Business automation
- AI for businesses

ENTREPRENEUR'S DIGITAL PLAYBOOK

Practical articles for SMEs and entrepreneurs.

This section can eventually become an important SEO/AEO/GEO asset.

16. LEAD GENERATION

The website should NOT depend only on a generic "Contact Us" form.

Create multiple conversion points.

Primary CTA

LET'S TALK

Secondary CTA

GET A DIGITAL GROWTH AUDIT

Contact form fields

Name

Business Name

Phone

Email

Website / Instagram

Business Category

What do you need help with?

- Website
- Digital Marketing
- Performance Marketing
- Social Media
- E-commerce

- Business Automation
- Digital Revenue Strategy
- Other

Approximate monthly marketing budget — optional

Message

Alternative conversion

WhatsApp Us

The WhatsApp CTA should be prominent on mobile.

17. DIGITAL GROWTH AUDIT

Create a dedicated landing page for:

FREE / PAID DIGITAL GROWTH AUDIT

Depending on the commercial model eventually selected.

Audit could assess:

- Website
- SEO
- Google visibility
- Social media
- Paid advertising
- Conversion journey
- WhatsApp/lead handling
- Google Business Profile
- Digital customer journey

CTA:

Request Your Audit

This can become an important lead-generation mechanism for Chazon.

18. FOOTER

Footer should contain:

CHAZON DIGITAL VENTURES

Revenue-Led Digital Transformation

Services

Digital Strategy
Website Development
E-commerce
Performance Marketing
Social Media Marketing
SEO
Digital Commerce
Business Automation

Company

About
Our Approach
Work
Insights
Contact

Contact

Phone
Email
Mumbai, Maharashtra

Social:

LinkedIn
Instagram
Facebook
WhatsApp

Include:

Privacy Policy
Terms & Conditions

19. DESIGN DIRECTION

The website should look:

Premium | Modern | Strategic | Clean | Intelligent | Business-focused

Avoid:

- Overly colourful agency designs
- Excessive animations
- Generic digital marketing imagery
- Too much text above the fold
- Stock images of people pointing at charts
- "We do everything" agency positioning

Visual language

Use:

- Strong typography
- Large headlines
- Plenty of whitespace
- Clean grids
- Subtle motion
- Data-inspired graphics
- Digital ecosystem diagrams
- Cards for services
- Case-study visuals
- Strategic use of Chazon brand colours

20. FUNCTIONAL REQUIREMENTS

Website

Responsive:

Desktop | Tablet | Mobile

CMS

Prefer WordPress or another CMS that allows Chazon to independently update:

- Services
- Case studies
- Blogs
- Testimonials
- Images
- FAQs

Performance

Target:

- Fast loading
- Mobile-first performance
- Optimised images
- Core Web Vitals compliance
- SSL
- SEO-friendly architecture

Analytics

Set up:

- Google Analytics 4
- Google Search Console
- Google Tag Manager
- Meta Pixel
- Conversion tracking
- WhatsApp click tracking
- Form submission tracking

SEO

Developer should build:

- SEO-friendly URLs
- Meta title/description capability
- Schema markup
- XML sitemap
- Robots.txt
- Canonicals
- Open Graph tags
- Image alt text
- Proper H1/H2/H3 hierarchy
- Internal linking structure

Architecture should also be designed with future **AI search / AEO / GEO visibility** in mind.

21. IMPORTANT — WEBSITE SHOULD BE BUILT FOR LEAD GENERATION

The website is not merely a company profile.

Every major page should answer:

What problem do we solve?

How do we solve it?

Why should a business trust us?

What should the visitor do next?

Every major section should therefore have an appropriate CTA.

22. RECOMMENDED HOMEPAGE FLOW

The final homepage sequence should approximately be:

HERO

THE BUSINESS PROBLEM

WHAT CHAZON DOES

OUR 4 SERVICE PILLARS

THE CHAZON DIFFERENCE

OUR APPROACH

SELECTED WORK / CASE STUDIES

INDUSTRIES

WHY CHAZON

ABOUT / FOUNDER

INSIGHTS

LET'S TALK

23. REFERENCE WEBSITE

Primary structural reference: DigiChefs

DigiChefs uses a combination of positioning, service categories, process, client proof, case studies, insights and strong enquiry CTAs. Its current website also prominently combines creative, performance, technology, SEO, automation and analytics capabilities.

Take inspiration from:

- Clear service architecture
- Strong homepage proposition
- Process explanation
- Case-study presentation
- Proof/results
- Content/insights
- Multiple CTAs
- Conversion-focused page structure

Dont copy:

- DigiChefs terminology
- "Agency" positioning
- Their visual identity
- Their copy
- Their "chef/menu" concept
- Their exact page structure

Chazon's own territory should be:

DIGITAL REVENUE

Strategy + Technology + Marketing + Automation

Built around business outcomes.

24. PRIMARY WEBSITE MESSAGE

The developer and copywriter should keep this thought at the centre of the entire website:

"Don't just build a digital presence. Build a digital revenue engine."

Chazon Digital Ventures

Revenue-Led Digital Transformation
